

## 01 — Our Commitment to Quality

Every material we source passes through a structured verification process before it is specified, ordered, or delivered to site. AccessVouched™ is StellarNova’s proprietary gatekeeping system — ensuring that every manufacturer we engage is legitimate, capable, and aligned with Australian building standards. We do not work with trading companies or unverified intermediaries.

## 02 — The 3+7 Supplier Onboarding Framework

Every manufacturer is evaluated across ten structured dimensions before being approved to supply materials for a StellarNova project. Three assess Australian-market readiness and compliance posture. Seven assess foundational credibility and operational capability.

3 Australian-Readiness Dimensions	7 Core Dimensions — Credibility & Capability	
<p><b>A1 Australian Standards Compliance ★</b> NCC, AS/NZS, CodeMark &amp; WaterMark — primary rejection gate. Failure here = immediate rejection regardless of total score.</p>	<p><b>D1 Corporate Identity Verification</b></p>	<p><b>D5 Service &amp; Warranty Framework</b></p>
<p><b>A2 R&amp;D &amp; Technical Capability</b> Customisation capacity and technical problem-solving for bespoke project requirements.</p>	<p><b>D2 Manufacturing Capacity</b></p>	<p><b>D6 Health, Safety &amp; Environment</b></p>
<p><b>A3 Supply Chain Resilience</b> Dual-sourcing strategies and logistics contingency to protect project delivery timelines.</p>	<p><b>D3 Export Track Record</b></p>	<p><b>D7 Communication &amp; Responsiveness</b></p>
	<p><b>D4 Quality Management System</b></p>	

## 03 — What This Means for Your Project

<p><b>Verified Suppliers Only</b> No manufacturer is engaged without passing all 3+7 dimensions. We work with established factories, never trading companies.</p>	<p><b>Compliance Documented</b> Certificates, test reports and licences collected and retained for every product sourced. Full documentation available on request.</p>	<p><b>Australian Accountability</b> StellarNova is based in Adelaide, SA. We are accountable, and not an overseas agent or trading company.</p>
